SUBJECT INDEX

Acidic fibroblast growth factor
  effects of, on 5-ene-3β-hydroxysteroid dehydrogenase-isomerase and 5α-reductase activities, in cultured immature Leydig cells, 477
Adrenal cortical adenomas
  mineralocorticoid production of, 57
Aldosterone
  biosynthesis of, by endothelin, 555
  final steps of, biosynthesis: molecular solution of a physiological problem, 153
  reduced, metabolites in hypertension, 19
  secretion of, by calf adrenocortical fasciculata cells in culture, 493
Androgen(s)
  role of, in breast cancer, 167
  the free, index is not valid for adult males, 325
Androstenedione
  microsomal reduction of, in rat liver, 581
Antiestrogen(s)
  inhibition of estrone sulfatase and 17β-hydroxysteroid dehydrogenase by, 383
Arginine-vasopressin
  role in the maintenance of growth and steroidogenic capacity of rat adrenal zona glomerulosa, 251
Aromatase
  cigarette smoking during pregnancy lowers, cytochrome *P*-450 in the human placenta, 485
  expression in breast tumors using reverse transcription-polymerase chain reaction, 217

Breast cancer
  detection of aromatase and keratinocyte growth factor expression in, using reverse transcription-polymerase chain reaction, 217
  regulation of 1,25-dihydroxy vitamin D_3 receptors in T-47D, cells, 257
  role of androgens in, 167

Cancer
  endometrial, cell line HEC-1A metabolizes the oral contraceptive steroids ethynylestradiol, norgestimate and 3-keto-desogestrel, 407
Chorionic gonadotropin
  effects of acidic fibroblast growth factor on human, in cultured immature Leydig cells, 477
Congenital adrenal hyperplasia
  new identified 15β-hydroxylated 21-deoxypregnanes in, due to 21-hydroxylase deficiency, 421
  partnership and sexuality in adult female patients with, 123
  problems in diagnosis and management of, due to 21-hydroxylase deficiency, 69
Congenital lipoid adrenal hyperplasia
  genes for *P*450scc in, 87
Contraceptive(s)
  metabolism of oral, by a human endometrial cancer cell line (HEC-1A), 407
Cortisol
  metabolism of, *in vitro*; species difference, 445
Cushing's disease
  the pathology of, 179
Cytochrome *P*-450
  cigarette smoking during pregnancy lowers aromatase, in the human placenta, 485

Dehydroepiandrosterone
  regulation of the hepatic glucocorticoid receptor by, in the Zucker rat, 517
5α-Dihydro-11-deoxycorticosterone
  a mineralocorticoid agonist and antagonist, 235

1,25-Dihydroxy vitamin D_3
regulation of, receptors in T-47D breast cancer cells, 257
DNA
binding of, to steroid hormone receptors, 205
protein–protein interactions between the, -binding domains of nuclear receptors, 239
progesterone and dexamethasone inhibition of estrogen-induced synthesis of, in rat uterine epithelium, 295

Endometrium
3β-hydroxysteroid dehydrogenase/isomerase from human, can locally reduce intrinsic estrogenic/progestagenic activity ratios of a steroidal drug (ORG OD 14), 345
metabolism of oral contraceptives by human, 407
Epitestosterone
effect of, on the plasma levels of LH and FSH in ovariectomized immature rats, 321
Estradiol
metabolic fate of, in relation to dietary intake of boron in ovariectomized rats, 549
Estrogen(s)
receptors
standardization of, 367
Estrone sulfatase
inhibition of, by antiestrogens, 383

FSH
effect of epitestosterone on the plasma levels of, in ovariectomized immature rats, 321

Genes
effects of 9-ene-tetrahydrocannibinol on expression of c-*myc*, in the mouse uterus, 459
evidence for two distinct, products in rat kidney 25-hydroxyvitamin D_3 1α- and 24-hydroxylases, 513
expression of aromatase and keratinocyte growth factor in breast tumors, 217
for P450scc in congenital lipoid adrenal hyperplasia, 87
testosterone induces expression of TGF-β in the murine thymus, 327
multiple binding sites for nuclear factors in the 5′-upstream region of two α_{2u}-globulin, 353
mutations in human 11β-hydroxylase, 99
α_{2u}-Globulin gene(s)
multiple binding sites for nuclear factors in the 5′-upstream region of two, 353
Glucocorticoid(s)
receptors
and aging, 191
structure of, 183

Hypertension
in pregnancy, 65
mass spectrometry in the diagnosis of, 127
19-nor-corticosteroids in genetic, and effects of inhibitors in 11β,18,19-hydroxylase activity, 13
reduced aldosterone metabolites in, 19
role of glucocorticoid activity in the inheritance of, studies in the rat, 7
2β-Hydroxy-19-oxoandrost-4-ene-3,17-dione
synthesis of, and its [2β-^{18}O] analog, 571
3α-Hydroxy-5α-pregnan-20-one
modulation of solubilized GABA/benzodiazepine receptor complex by, 309
3α-Hydroxysteroid dehydrogenase
activity in tissues of the human fetus, 525
3α-Hydroxysteroid oxidoreductases
barbiturates modulate the activity of the pituitary, 287
3β-Hydroxysteroid dehydrogenase deficiency
male pseudohermaphroditism caused by nonsalt-losing congenital adrenal hyperplasia due to, 83

11β-Hydroxysteroid dehydrogenase
forms and functions of, 161
characterization of, in human placenta, 391
17-Hydroxylase deficiency
diagnosis and treatment of, 107
17β-Hydroxysteroid dehydrogenase
inhibition of, by antiestrogens, 383
21-Hydroxylase deficiency
diagnosis and management of congenital adrenal hyperplasia due to, 69
new identified 15β-hydroxylated 21-deoxypregnanes in congenital adrenal hyperplasia due to, 421
prenatal diagnosis and treatment of, 75
25-Hydroxyvitamin D_3
evidence for two distinct gene products: 1α- and 24-hydroxylases in rat kidney, 513

Insulin-like growth factor-I
gene, effects of 9-ene-tetrahydrocannabinol on expression of, in the mouse uterus, 459

Keratinocyte growth factor
expression in breast tumors using reverse transcription-polymerase chain reaction, 217

Leydig cells
effects of acidic fibroblast growth factor on 5-ene-3β-hydroxysteroid dehydrogenase-isomerase and 5α-reductase activities in cultured immature, 276
LH
effect of epitestosterone on the plasma levels of, in ovariectomized immature rats, 321

Male pseudohermaphroditism
caused by nonsalt-losing congenital adrenal hyperplasia due to 3β-hydroxysteroid dehydrogenase deficiency, 83
MCF-7 cells
estrogen receptor mRNA in human, breast cancer cells, 227
interaction between sex steroid binding protein and its specific receptor of, 435
Medroxyprogesterone acetate
effect of, on the proliferation and hormone receptor concentration of human breast cancer cells, 315
Meningioma
estrogen receptor mRNA in human, tissue, 227
Mineralocorticoid(s)
congenital and acquired syndromes of apparent, excess, 1
5α-dihydro-11-deoxycorticosterone as a, agonist and antagonist, 235
production of adrenal cortical adenomas by, 57

Onapristone
effect of, on the proliferation and hormone receptor concentration of human breast cancer cells, 315
Oncogene(s)
c-*myc* gene, effects of 9-ene-tetrahydrocannabinol on expression of, in the mouse uterus, 459
Opioids
role of endogenous, in progesterone antagonism on oestradiol-induced DNA synthesis in the rat uterus, 455
Ovary
endocrine differentiation of the XY sex-reversed mouse, during postnatal development, 265

Phytoestrogens
in vitro bioassays of non-steroidal, 399
Pituitary
barbiturates modulate the activity of the, 3α-hydroxysteroid oxidoreductases, 287
Placenta
cigarette smoking during pregnancy lowers aromatase cytochrome *P*-450 in the human, 485

Polymerase chain reaction
reverse transcription, for detection of aromatase and keratinocyte growth factor expression in breast tumors, 217
Pregnancy
hypertension in, 65
Primary aldosteronism
differential diagnosis in, 49
Progesterone
14α-hydroxylation of, in *Mucor piriformis*, 563
identification of, in the plasma membrane of the filamentous fungus *Cochliobolus lunatus*, 281

RAS
changes in the, after nephrectomy and adrenalectomy, 41
Receptor
androgen
testosterone down-regulates the levels of, mRNA in smooth muscle cells from the rat corpora cavernosa via aromatization to estrogens, 333
1,25-dihydroxy vitamin D_3
sex steroids-induced up-regulation of, in T-47D breast cancer cells, 257
estrogen
standardization of, 367
glucocorticoid(s)
and aging, 191
dehydroepiandrosterone regulation of the hepatic, in the Zucker rat, 517
structure of, 183
nuclear
protein–protein interactions between the DNA-binding domains of, influence on DNA-binding, 239
progesterone
identification of, in the plasma membrane of the filamentous fungus *Cochliobolus lunatus*, 281
steroid(s)
DNA binding of, without affecting dimerization, 205
role of vascular, in the control of vascular contractility and peripheral vascular resistance, 195
5α-Reductase
expression of, in bacteria, 539
Renin–aldosterone system
effects of the atrial natriuretic factor on the, 173
paracrine regulation of the, 27
mRNA
estrogen receptor, in human meningioma and MCF-7 breast cancer cells, 227
testosterone down-regulates the levels of androgen receptor, in smooth muscle cells from the rat corpora cavernosa via aromatization to estrogens, 333
RU-486
antiandrogenic property of, and enhancement of estrogen-induced uterine peroxidase activity in the rat, 303

Sex steroids binding protein
interaction between, and its specific receptor of MCF-7 cells, 435
Steroid(s)
antioxidant properties of, 509
Steroidogenesis
effects of pro-opiomelanocortin peptides on adrenocortical, 141
factors controlling, in the zona glomerulosa of the adrenal, 147
maturational changes in, in the inner and outer zones of the guinea pig adrenal cortex, 501

Testosterone
characterization of the, inducible protein fraction from the mouse fetal male reproductive tract, 375

down-regulates the levels of androgen receptor mRNA in smooth muscle cells from the rat corpora cavernosa via aromatization to estrogens, 333
induces expression of TGF-β in the murine thymus, 327
Testosterone–receptor complex
kinetic evidence for a unique, in 5α-reductase sufficient genital skin fibroblasts, 467
T-47D breast cancer cells
sex steroids-induced up-regulation of 1,25-dihydroxy vitamin D_3 receptors in, 257
Thymus
testosterone induces expression of TGF-β in the murine, 327
Transforming growth factor-β
effects of 9-ene-tetrahydrocannabinol on expresssion of, in the mouse uterus, 459
testosterone induces expression of, in the murine thymus, 327

We wish to express our deep thanks to the following persons for their kind collaboration in reviewing papers for *The Journal of Steroid Biochemisty and Molecular Biology*:

Drs BARTLETT J., Edinburgh, Scotland; BURAS R. R., Washington, U.S.A.; CARLSTEDT-DUKE J., Huddinge, Sweden; CHENG K. C., New York, U.S.A.; FRETER C., Washington, U.S.A.; HAWKINS R. A., Edinburgh, Scotland; MANI S., Houston, U.S.A.; MILLER L. A., Denver, U.S.A.; MONDER C., New York, U.S.A.; NAHOUL K., Fresnes, France; REIBNEGGER G., Innsbruck, Austria; SAEZ J., Lyon, France; SCHACHTER B., New York, U.S.A.; SIMARD J., Quebec, Canada; and LUU-THE V., Quebec, Canada.
